These can't ALL be right. *Can they?*

Islam is full of violence.

We can't judge all Muslims by the actions of a few.

Islam is a religion of peace.

You're just an ignorant bigot!

Muslims want to take over the world.

They have perverted the great religion of Islam.

I know several Muslims. They're fine people.

ALL MUSLIMS ARE TERRORISTS.

They're crazy!

Jihad is just a peaceful inner struggle, not "Holy War."

The answers may be found in

Shariah 101

Shariah 101 is an hour long oral and visual presentation on the nature of Shariah Law, its connection to Islam, and its relevance to world and local events. Using mainstream, modern day, authoritative Islamic sources, **you will be introduced to an intellectual framework through which all events concerning Islam may be understood, and why it matters to you.**

The creator has gone to great lengths to develop a factual, balanced, honest, mild, unimpeachable presentation that will garner praise, agreement, and awareness, and it is his hope that this will lead to action.
